Gender:

## Transcription Report:

Here is the formatted medical report:

### **\*\*Patient Information\*\***

\* Name: Simran Parveen

\* Age: 29

### **\*\*Patient History\*\***

The patient presented with complaints of severe stomach ache, which started since yesterday night. She had tried taking an antacid but the pain persisted. The patient also reported having bouts of vomiting. She has a history of similar stomach ache episodes in the past, almost three months ago, which resolved with the use of an antacid.

### **\*\*Symptoms\*\***

\* Severe stomach ache

\* Vomiting

\* No headache reported

### **\*\*Diagnosis\*\***

After conducting a physical examination and reviewing test reports, the patient was diagnosed with food poisoning.

### **\*\*Treatment Plan\*\***

The patient received an injection for temporary relief of symptoms. She was also prescribed medication to be taken for one week after dinner.

**\*\*Recommendations\*\***

- \* The patient was advised to take the medication as prescribed for one week.
- \* If symptoms persist or recur, the patient was instructed to return to the clinic immediately.
