Medical Report

Patient Information:

\* Patient Name: Simran Parveen

\* Patient Age: 29 years

Patient History:

\* Presenting complaint: Severe stomach ache since yesterday night

\* Past medical history: Had similar symptoms approximately three months ago, which resolved with antacid treatment

\* No other significant medical history or allergies reported

Symptoms:

\* Severe stomach ache since yesterday night

\* Bouts of vomiting last night and today morning

\* No headache reported

\* Abdominal tenderness and pain upon palpation

Diagnosis:

\* Food poisoning, likely secondary to viral gastroenteritis

Treatment Plans:

\* Antacid injection for temporary relief of symptoms

\* Prescription of medication for 7 days, to be taken after dinner

- \* Follow-up advice to report any recurring symptoms or worsening of condition

#### Recommendations:

- \* The patient is advised to take the prescribed medication as directed for the next 7 days
- \* To report any recurrence of symptoms or worsening of condition to the healthcare provider immediately
- \* To avoid irregular eating habits and maintain a balanced diet to prevent further episodes of food poisoning

Note: A complete set of test reports was reviewed and the patient was informed of the diagnosis and treatment plan.
