Transcription Report:

Here is the formatted medical report:

Patient Information:

* Name: Simran Parveen

* Age: 29 years

* Sex: (not mentioned)

Patient History:

* The patient presented with a history of severe stomach ache since yesterday night, which was not relieved by an antacid.

* The patient had similar symptoms approximately three months ago, which were also alleviated by an antacid.

* No history of headache or other associated symptoms.

Symptoms:

* Severe stomach ache

* Bouts of vomiting, including last night and today morning

* No headache

Diagnosis:

* Initial diagnosis was not specified, but further testing suggested that the symptoms were likely caused by food poisoning.

Treatment Plan:

- * An injection was administered for temporary relief of symptoms.
- * A medication was prescribed to be taken for one week after dinner.

****Recommendations:****

- * The patient was advised to submit the fees at the cash counter.
- * The patient was instructed to return immediately if symptoms recur.

Additional notes:

- * The patient was reassured that there was nothing to fear and that the symptoms were likely caused by food poisoning.
- * The patient was advised to take the prescribed medication after dinner for one week.
